

Medicare Prescription Drug Plans

# 2024 Cigna Healthcare Comprehensive Drug List (Formulary)

**Please read:**

**This document contains information about  
all of the drugs we cover in this plan.**

**Plan covered**

Cigna Healthcare Secure Rx (PDP)

HPMS Approved Formulary File Submission 00024185, Version Number 23.

This formulary was updated on 12/1/2024. For more recent information or other questions, please contact Cigna Healthcare Customer Service, at 1-800-222-6700 (TTY users should call 711), 8 a.m. - 8 p.m. local time, 7 days a week. Our automated phone system may answer your call during weekends from April 1 - September 30, or visit [CignaMedicare.com](https://www.CignaMedicare.com).

The Formulary and pharmacy network may change at any time.

**Note to existing customers: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.**

**When this drug list (formulary) refers to “we,” “us,” or “our,” it means Cigna Healthcare. When it refers to “plan” or “our plan,” it means Cigna Healthcare Secure Rx (PDP).**

**This document includes a list of the drugs (formulary) for our plans, which is current as of December 2024. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.**

**You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2025, and from time to time during the year.**

### **What is the Cigna Healthcare Comprehensive Drug List?**

A drug list is a list of covered drugs selected by Cigna Healthcare in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Cigna Healthcare will generally cover the drugs listed in our drug list as long as the drug is medically necessary, the prescription is filled at a Cigna Healthcare network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage (EOC).

### **Can the Drug List (formulary) change?**

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the drug list during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes.

**Changes that can affect you this year.** In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs.** We may immediately remove a brand name drug on our drug list if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug on our drug list, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
  - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and

you can also find information in the section entitled “How do I request an exception to the Cigna Healthcare Drug List?”

- **Drugs removed from the market.** If the Food and Drug Administration (FDA) deems a drug on our drug list to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our drug list and provide notice to customers who take the drug.
- **Other changes.** We may make other changes that affect customers currently taking a drug. For instance, we may add a generic drug that is not new to the market to replace a brand name drug currently on the drug list, or add new restrictions to the brand name drug or move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines and/or studies. If we remove drugs from our drug list, add prior authorization, quantity limits, and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected customers of the change at least 30 days before the change becomes effective, or at the time the customer requests a refill of the drug, at which time the customer will receive a 30-day supply of the drug.
  - If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the Cigna Healthcare Drug List?”

**Changes that will not affect you if you are currently taking the drug.** Generally, if you are taking a drug on our 2024 drug list that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with

no new restrictions for those customers taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the drug list for the new benefit year for any changes to drugs.

The enclosed drug list is current as of December 2024. To get updated information about the drugs covered by Cigna Healthcare, please contact us. Our contact information appears on the front and back cover pages. If there are significant changes made to the printed drug list within the covered year, you may be notified by mail identifying the changes. Drug lists located on our website are reviewed and updated on a monthly basis.

### **How do I use the Drug List?**

There are two ways to find your drug within the drug list:

#### **Medical Condition**

The drug list begins on page 10. The drugs in this drug list are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "CARDIOVASCULAR, HYPERTENSION / LIPIDS." If you know what your drug is used for, look for the category name in the list that begins on page 10. Then look under the category name for your drug.

#### **Covered Drug Index**

If you are not sure what category to look under, you should look for your drug in the Covered Drugs Index that begins on page 55. The Covered Drugs Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Covered Drug Index and find the name of your drug in the drug name column of the list.

### **What are generic drugs?**

Cigna Healthcare covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

### **Are there any restrictions on my coverage?**

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Cigna Healthcare requires you or your doctor to get prior authorization for certain drugs. This means

that you will need to get approval from Cigna Healthcare before you fill these prescriptions. If you don't get approval, Cigna Healthcare may not cover the drug.

- **Quantity Limits:** For certain drugs, Cigna Healthcare limits the amount of the drug that Cigna Healthcare will cover. For example, Cigna Healthcare allows for 1 tablet per day for atorvastatin 40mg. This applies to a standard one-month supply (for total quantity of 30 per 30 days) or three-month supply (for total quantity of 90 per 90 days).
- **Step Therapy:** In some cases, Cigna Healthcare requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Cigna Healthcare may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Cigna Healthcare will then cover Drug B.
- **Non-Extended Days Supply:** For certain drugs, Cigna Healthcare limits the amount of the drug that Cigna Healthcare will cover to only a 30-day supply or less, at one time. For example, customers who have not had any recent fill of opioid pain medications within the past 108 days (referred to as "opioid naïve") are limited to a maximum of 7 days' supply of opioid pain medication. Customers who have received a recent fill of an opioid pain medication (not opioid naïve) are limited to up to a month's supply of that medication at one time. Other high cost drugs may be subject to a non-extended day supply restriction, as well.

You can find out if your drug has any additional requirements or limits by looking in the drug list that begins on page 10. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the drug list, appears on the front and back cover pages.

You can ask Cigna Healthcare to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the Cigna Healthcare drug list?" on page 3 for information about how to request an exception.

## Options for Maintenance Medications

Taking the medications prescribed by your doctor (or other prescriber) is important to your health.

We are committed to helping you control your chronic conditions by making it easy for you to receive your maintenance medications. There are several ways we can work together to accomplish this goal:

- Talk with your doctor about whether a 90-day supply of your ongoing, stable medications may be appropriate. Taking these medications every day as prescribed is important for your overall health, and getting 90-day prescriptions of these medications can help ensure that you do not miss a dose.
- You can receive a 90-day supply at most retail pharmacies or through one of our mail-order pharmacies.
- Talk to your pharmacist if you are experiencing any new challenges with your maintenance medications.

## How can I use my prescription drug coverage to save money on my medications?

There may be opportunities for you to save money on your medications using your Cigna Healthcare coverage.

- Ask your doctor (or other prescriber) if there are any lower-cost generic alternatives available for any of your current medications.
- Some plans may offer a \$0 copay for Tier 1 generic drugs filled at a preferred retail and/or mail-order pharmacies. Check the Drug Tier and Cost-share Tables on page 6 to see if your plan offers these savings.
- Explore whether the 'CMS Extra Help' program may offer additional financial support for your medications.
- If your medication is not covered in the Cigna Healthcare drug list, talk with your doctor about alternative medications which are covered on the drug list.

## What if my drug is not on the Drug List?

If your drug is not included in this drug list, you should first contact Customer Service and ask if your drug is covered. If you learn that Cigna Healthcare does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by Cigna Healthcare. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by Cigna Healthcare.
- You can ask Cigna Healthcare to make an exception and cover your drug. See the next section for information about how to request an exception.

## How do I request an exception to the Cigna Healthcare Drug List?

You can ask Cigna Healthcare to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our drug list. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Cigna Healthcare limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level, unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug. This applies to the following circumstances:
  - If the drug you're taking is a brand name drug, you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains brand name alternatives for treating your condition.
  - If the drug you're taking is a generic drug, you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains either brand or generic alternatives for treating your condition.
  - If the drug you're taking is a biological product, you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains biological product alternatives for treating your condition.

Please note, if we grant your request to cover a drug that is not on our drug list, you may not ask us to provide this drug at a lower cost-sharing level.

Generally, Cigna Healthcare will only approve your request for an exception if the alternative drug is included in our drug list, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a drug list, tiering or utilization restriction exception. **When you request a drug list, tiering or utilization restriction exception you should submit a statement from your prescriber or doctor supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your

health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

### **What do I do before I can talk to my doctor about changing my drugs or requesting an exception?**

As a new or existing customer in our plan you may be taking drugs that are not on our drug list. Or, you may be taking a drug that is on our drug list but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a drug list exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug up to a 30-day supply, in certain cases during the first 90 days you are a customer of our plan.

For each of your drugs that is not on our drug list or if your ability to get your drugs is limited, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. After your first 30-day supply, we will not pay for these drugs without a drug list exception, even if you have been a customer of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our drug list or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a drug list exception.

In order to accommodate unexpected transitions of our customers that do not leave time for advanced planning, such as level-of-care changes due to discharge from a hospital to a nursing facility or to a home, Cigna Healthcare will allow a one-time 31-day supply (unless the prescription is written for fewer days).

### **Cigna Healthcare's Drug List**

The comprehensive drug list that begins on page 10 provides coverage information about all of the drugs covered by Cigna Healthcare. If you have trouble finding your drug in the list, turn to the Covered Drug Index that begins on page 55.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., TRELEGY ELLIPTA) and generic drugs are listed in lower-case italics (e.g., *atorvastatin*).

The information in the Requirements/Limits column tells you if Cigna Healthcare has any special requirements for coverage of your drug.

We provide quantity limits on certain drugs which are indicated with a QL in the Covered Drugs by Category list on page 10 along with the amount dispensed per the days supplied. (For example: atorvastatin 40mg QL 30/30; this means the drug atorvastatin 40mg is limited to 30 tablets per 30 days. For 90-day supplies, this quantity limit would be expanded to 90 tablets per 90 days).

### **What is a preferred network pharmacy?**

If your plan has preferred network pharmacies, you will typically save money by using these pharmacies. Your prescription drug costs (like a copay or coinsurance) will typically be less at a preferred network pharmacy because it has a preferred agreement with your plan. If you need help finding a network pharmacy, please call Customer Service at 1-800-222-6700 (TTY 711), or you can visit [CignaMedicare.com](http://CignaMedicare.com) for the most current Pharmacy Directory.

### **For more information**

For more detailed information about your Cigna Healthcare prescription drug coverage, please review your Evidence of Coverage (EOC) and other plan materials. To access a copy of your most recent EOC, go to [CignaMedicare.com](http://CignaMedicare.com).

If you have questions about Cigna Healthcare, please contact us. Our contact information, along with the date we last updated the drug list, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at **1-800-MEDICARE (1-800-633-4227)**, 24 hours a day, 7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

## Drug Tier and Cost-Share Table

The following table represents the plan service area, the drug tier number as it appears on the drug list, and the cost-share amount for that tier number. Tier 1 is for Preferred Generic drugs. Tier 2 is for Generic drugs. Tier 3 is for Preferred Brand drugs. Tier 4 is for Non-Preferred drugs. Tier 5 is for Specialty tier drugs. Please refer to the following chart. You may also refer to your Evidence of Coverage (EOC) document for additional details.

Cigna Healthcare is not always able to keep all generic medications in the Preferred Generic and Generic drug tiers. Some generic medications may be in Tier 3, Tier 4, or Tier 5. Keep in mind that the name “Tier 3: Preferred Brand Drugs” is just a description of the majority of the drugs in the tier. It does not mean that there are only brand drugs in that tier.

**For customers receiving Extra Help:** Your Low Income Subsidy (LIS) copay level will be based on how the Food and Drug Administration (FDA) classifies certain drugs. Due to this, a generic drug may receive a preferred brand copay, or a preferred brand drug may receive a generic drug copay. Please see your LIS Rider for additional information on these copay levels. Or call Customer Service for further clarification regarding a specific drug.

## Locate your drug cost

**To locate your drug cost, please refer to the table(s) on the next few pages to find your service area and the Prescription Drug plan in which you are currently enrolled or would like to enroll.**

**If you qualified for Extra Help with your drug costs, your costs may be different from those described in these tables. Please refer to your Evidence of Coverage (EOC) or call Customer Service to find out what your costs are.**

**Cigna Healthcare uses preferred network pharmacies. See your Pharmacy Directory or visit [CignaMedicare.com](https://www.CignaMedicare.com) to search for a preferred retail or mail-order pharmacy near you.**

For insulins that are covered by our plans, you will pay only \$35 for each 30-day script and \$0 for each covered adult vaccine.

Long-term care (LTC) and home infusion pharmacies use standard pharmacy cost-sharing. For LTC you can get up to a 31-day supply. At an out-of-network pharmacy you will pay the in-network pharmacy copay or percentage of the cost plus the amount that the out of network pharmacy billed charges are higher than our typical standard retail pharmacy billed charges. If you receive Extra Help, these costs do not apply. You typically pay only a low copay.

### Drug List Key:

**B/D** – This prescription drug has a Part B versus D administrative prior authorization requirement. This drug may be covered under Medicare Part B or D depending on circumstances.

**LA** – Limited Availability. This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Cigna Healthcare Customer Service, at 1-800-222-6700 (TTY users should call 711), 8 a.m. – 8 p.m. local time, 7 days a week. Our automated phone system may answer your call during weekends from April 1 – September 30, or visit [CignaMedicare.com](http://CignaMedicare.com).

**NDS** – Non-extended day supply medication. This drug is only available for a one month supply.

**PA** – This drug requires prior authorization

**QL** – This drug has quantity limits

**ST** – This drug has step therapy requirements

**V** – This vaccine is provided at no cost when used based on recommendations by the Centers for Disease Control and Prevention's (CDC) Advisory Committee on Immunization Practices (ACIP).

Generally all medications on the drug list are available through mail-order, except when special circumstances or situations prohibit mailing a particular medication to your home.

## Covered Drugs By Category
